

Product information

Barrier Cream

Bardahl Barrier Cream is a non-greasy, silicon-free, pre-work lotion, which is easily absorbed to provide long-lasting skin protection. It forms a barrier to prevent harmful substances and dirt from penetrating into the skin, thus making the hands easier to clean. This product is dermatologically and toxicologically tested and therefore will not harm.

Bardahl Barrier Cream is ideal where a wide range of substances may be encountered and provides protection against the harmful effects of water, hot or cold conditions, various solvents, acids, alkalis, oils, greases, lubricants, tar, bitumen, inks, lacquers, paints, cement, lime, adhesives, polyurethane foams, sealants, soot, pigments etc.

Bardahl Barrier Cream is based on natural ingredients, which are dermatologically and toxicologically safe, and contains natural - Bisabolol, an inflammation inhibitor found in camomile. A unique combination of active ingredients provides allround protection, whilst allowing the skin to breathe and retain its natural moisture. Bardahl Barrier Cream contains no preservatives, mineral or silicon oils or their derivatives.

Bardahl Barrier Cream is economical to use, with only 1 ml being enough to protect the hands for several hours.

Instructions for use:

Apply sparingly to clean, dry skin and rub in well, paying particular attention to between the fingers and around the finger nails.
