

PRODUCT INFORMATION SHEET

CARPLAN FLEXIBLE EXHAUST WRAP

DESCRIPTION

Carplan Flexible Exhaust Wrap is a tough; steel repair for straight pipes which bonds to the exhaust system, creating a long lasting, and gas tight repair. It is quick and easy to use and can be applied to the straight pipe in minutes with the aid of a screwdriver – without the need to dismantle the exhaust system.

DIRECTIONS FOR USE

- Ensure surface to be repaired is dry and free from rust, oil and dirt. Sand metal with a wire brush if necessary.
- Place the wire cloth over the hole and then wrap the flexible exhaust wrap tightly around damaged area of the straight pipe, overlapping the edges by at least 13mm. If necessary, trim any excess of the steel wrap with a pair of household scissors.
- Locate the end of the adjustable clip in the nearest retaining hole, and tighten fully with a screwdriver.

NOTE: Carplan Flexible Exhaust Wrap can be used with Exhaust Repair Paste to fill in small holes and leaks before applying the steel wrap.
